

JULIAAN LAMPENS 1950-1991

NEW REVISED AND ENLARGED EDITION
SPECIAL EDITION WITH FOUR COLOUR REPRODUCTIONS

The architecture of Juliaan Lampens (1926-2019), one of the greatest Belgian architects of the twentieth century, possesses uniquely sculptural qualities that continue to fascinate audiences at home and abroad. ***Juliaan Lampens 1950-1991*** is the reissue of an exhibition catalogue from 1991, supplemented by an updated biography, a foreword and new translations. It is a unique reference work because the hand of the master is emphatically present in every facet of the publication. The architect literally and figuratively shaped the book: texts, plans, photographs and sketches are interwoven with personal notes and invite the reader to enter the exceptional universe of Juliaan Lampens.
